Description of work

1. Careful dismantling of existing panel walls in both the bedroom and the living room, with a focus on minimizing damage to surrounding structures.

2. Precise chiseling of tiles with special attention to protecting the underfloor heating cables to maintain their functionality.

3. Efficient removal and proper disposal of building waste in compliance with current regulations

4. Construction of new walls in both the bedroom and the living room using quality gypsum, with an emphasis on stability and aesthetic appeal.

5. Application of 10 cm insulation on the exterior walls to enhance thermal efficiency and energy performance of the residence.

6. Exact laying of 60x60 tiles in the living room to create a smooth and appealing floor.
7. Thorough application of grout with minimal spacing between tiles to ensure solidity and aesthetic consistency.

8. Comprehensive plastering and sanding of walls to achieve a smooth surface ready for painting.

9. Cleaning and painting of walls with the customer's chosen color, after thorough preparation to ensure a lasting and flawless result.

10. Precise installation and painting of moldings, as well as doors with white paint to complete the room's aesthetic appearance.

11. Painting of the laundry room with white paint to create a clean and inviting environment.

This will take approximately 12 to 14 days to complete. The start date can be either March 29th or April 1st.

- ***The price includes materials, labor, and waste disposal for 80,000 kr in cash or 105,000 kr excluding VAT on the invoice.***
