WORK EXPERIENCE

2021-09 - University of Oslo Job: Doctoral Research Fellow

2020-01 - 2021-08 University of Bergen Job: Higher Executive Officer, Student Advisor
Student Advisor at the Department of Chemistry at the Faculty for Mathematics and Natural Sciences. Responsibilites included administration and student advising students enrolled in the BA and MA of Nanotechnology, as well as students enrolled in the integrated MA program for Medical Technology (Siv. Ing). Additionally, I was responsible for the administration of the international MA, EMQAL.

2019-08 - 2020-01 Universitetet i Bergen Job: Higher Executive Officer, Student Advisor
For the Faculty of Fine Art, Music and Design at the University of Bergen. Responsibilites included administration and student advising of the following degrees: BA in Music Science, and PPU for art, music and design. This also included coordinating 4 individual workplacements for each student annually (approx 40 students)

2011-05 - 2019-07 ARK Bokhandel Job: Sales assistant
I have been emloyed in several shops in the ARK bookshops chain, primarily at ARK Beyer. My responsibilites included customer service, sales and ordering of books. I was also solely responsible for expanding and mainting the philosophy/litt. science department of the shop.

2019-03 - 2019-03 University of Bergen Job: Research Assistant
Research assistant for the Department of Information Science and Media Studies. Primarily I identified and analysed philosophical arguments in social media connected to the student-strikes for the climate that were widespread in Europe in 2019. Formally employed for a month, but contiued working pro bono until the end of 2019.

2018-08 - 2018-12 University of Bergen Job: Lecturer
Lecturer in Ex.Phil for students at the Faculty for Social Sciences. 80% position. Responsibilites included teaching seminars, supervising semester papers and examination of papers from mye own students, as well as others.

2018-05 - 2018-05 University of Bergen Job: Teaching Assistant
Electronic supervision of Ex.Phil papers from both the Humanities Faculty and The Faculty of Social Sciences.

2018-04 - 2018-05 University of Bergen Job: Research Assistant
Indexing of Espen Gamlund and Carl Tollef Solberg book 'Saving People From the Harm of Death'.

2018-01 - 2018-05 University of Bregen Job: Research Assistant
Contributed to practical and scientific work in connection with arranging and completing a study trip to Athens i 2018. Connected to the Subject FIL233 - Ancient Philosophy.

2017-01 - 2018-01 University of Bergen Job: Higher Executive Officer
Completed a few smaller projects on behalf of the administration at the Department of Philosophy.

2016-09 - 2017-05 Study Bergen/Utdanning i Bergen Job: Studentambassador
Groupleader for the studentambassadors in the Hordaland Group. Responsibilites included traveling to several different High Schools and promoting the University of Bergen. As group leader I was responsible for coordinating and managing the group before and during the trip.

TEACHING / MENTOR QUALIFICATIONS

2018-08 - 2019-01 University of Bergen Subject: Ex.Phil
Teaching Ex.Phil for SV-students. I was responsible for teaching, supervision and examination of semesterpapers for two seminargroups.

PUBLICATIONS / SCIENTIFIC PRODUCTIONS

2022-04 Type: Poster/Abstract Title: Theoretical assumptions behind a cost effectiveness analysis of IVF treatment Publishing: BMJ Degree: Ph.D.
This poster was presented at the International Society for Priorities in Health Conference, hosted by Bergen Center for Ethics and Priority Setting in Health (BCEPS). The poster outlines philosophical problems that must be solved in order for us to complete a cost-effectiveness analysis for medical treatments concerning future, but currently non-existing, people. The identified philosophical problems seem to demonstrate that our current summary measures of health are not entirely sufficient - both in terms of future people as well as currently existing people.

2022-03 Type: Book Review Title: Hva vil vi med Ex.Phil? Dannelse eller introduksjon til Akademia? Publishing: Norsk Filosofisk Tidsskrift Degree: Ph.D.
Book Review of the introductory book for the course Ex.Phil for students at the Faculty of Humanities. The review

	considers what the purpose of the course is, both historically as well as currently, and evaluates whether the book coincides with the purpose of the course.
2018-05	Type: MA Thesis Title: Should We Care About the Existence and Well-Being of Future Generations?' Publishing: BORA Degree: Master Study counsellor: Espen Gamlund & Jesse Tomalty In this thesis I explored our moral responsibility towards future generations. The thesis focused on the philosophical paradox, named the non-identity problem. In my thesis I systematically looked at the three main premises the paradox rely on. I presented two potential solutions to the paradox, and concluded that we should, in fact, care about the existence and well-being of future generations. The thesis and defence resulted in the lettergrade: A

COURSES

2022-08	Workshop at the Global Priorities Institute at the University of Oxford Duration: 2 days Participated in a workshop at the GPI in Oxford titled "Can Longterminists be nonconsequentialists?". The workshop was very rewarding, and I had the oppurtunity to connect with many researchers who are working on closely related topics to my own project. I to apply for a GPI Fellowship for 2023 to continue.
2022-03	Opening Philosophy of Medicine to the Future by Integrating Historical Epistemology and STS Duration: 2 days The course focused on the epistemology of evidence-based medicine (EBM) and of precision medicine (PM). The course focused on seeing both EBM and PM in light of two prominent figures of sciences studies and historical epistemology, namely Ludwik Fleck and Georges Canguilhem.
